

Canada Accounting & Tax Support

A clearer handoff from the ledger to your year-end file.

La Comptabilité | 20 years of experience | Trusted by 100+ accounting professionals.

For CPA and accounting practices

La Comptabilité works behind your practice on defined accounting and tax-preparation assignments. Your team keeps the client relationship and decides what is ready for approval. Each assignment starts with a written scope, source records and a named reviewer.

Work you can scope with us

- Bookkeeping and bank reconciliations
- T1 and T2 preparation support within an agreed scope
- GST/HST workpapers and payroll/T4 reconciliation support
- Year-end schedules, management reporting and family-entity accounting

A handoff built for review

Receive reconciliations, supporting schedules, proposed entries and an open-item register. Material balances carry source references. Questions remain visible until your reviewer resolves them; a balanced trial balance is not treated as proof that every item is correct.

Start with a bounded assignment

Start with a year-end working-paper file. Fix the fiscal period, GST/HST reporting basis, payroll scope and review format so that questions reach the right person.

Software and access

QuickBooks Online, Xero or Sage where the product and access are agreed. Canadian tax software is confirmed before acceptance.

The engagement records who can access each system, which records can be processed and where working papers are retained. Product names do not imply vendor certification or partnership.

Engagement options

A defined pilot, recurring preparation support or work by return/job can be considered. Fees, delivery dates, volume limits and acceptance criteria are quoted in writing after the file is assessed. This brochure does not promise a fixed fee or completion date.

Professional responsibilities

Your Canadian practice retains advice, authorisation and filing responsibility. Province-specific returns and reporting need a separate scope; no local registration is represented.

What to provide at scoping

- The entity type, periods and specific tasks. Use coded details for the first conversation.
- The accounting system, record volumes, outstanding reconciliations and target handoff.
- Your reviewer, escalation route and any restrictions on overseas access.

Choose the first file

Email hello@lacomipl.com with the service and country. We will agree the records and deliverables before work starts. Do not email taxpayer IDs or client records in an initial enquiry.
