

GCC Accounting & Tax Support

Country-specific preparation. One documented handoff.

La Comptabilité | 20 years of experience | Trusted by 100+ accounting professionals.

For accounting, tax and audit practices

La Comptabilité works behind your practice on defined accounting and tax-preparation assignments. Your team keeps the client relationship and decides what is ready for approval. Each assignment starts with a written scope, source records and a named reviewer.

Work you can scope with us

- Bookkeeping and year-end schedules
- UAE corporate-tax and VAT preparation support as scoped
- Saudi VAT/Zakat supporting schedules, subject to agreed specialist review
- Payroll/WPS reconciliations, virtual CFO and family-holding accounting

A handoff built for review

Receive reconciliations, supporting schedules, proposed entries and an open-item register. Material balances carry source references. Questions remain visible until your reviewer resolves them; a balanced trial balance is not treated as proof that every item is correct.

Start with a bounded assignment

Choose the country, legal entity, tax registrations and reporting period first. An assignment for a UAE company is scoped separately from a Saudi entity, with local review responsibilities recorded.

Software and access

QuickBooks Online, Xero or Sage where agreed. Other products and authority-portal access are confirmed for each country.

The engagement records who can access each system, which records can be processed and where working papers are retained. Product names do not imply vendor certification or partnership.

Engagement options

A defined pilot, recurring preparation support or work by return/job can be considered. Fees, delivery dates, volume limits and acceptance criteria are quoted in writing after the file is assessed. This brochure does not promise a fixed fee or completion date.

Professional responsibilities

GCC is a region, not a single tax jurisdiction. Local advice, registration and filing stay with the authorised adviser. UAE and Saudi scope does not imply coverage of every GCC tax or filing.

What to provide at scoping

- The entity type, periods and specific tasks. Use coded details for the first conversation.
- The accounting system, record volumes, outstanding reconciliations and target handoff.
- Your reviewer, escalation route and any restrictions on overseas access.
