

United States Accounting & Tax Support

Keep preparation moving while your firm owns the tax position.

La Comptabilité | 20 years of experience | Trusted by 100+ accounting professionals.

For CPA firms, EA practices and tax-attorney firms

La Comptabilité works behind your practice on defined accounting and tax-preparation assignments. Your team keeps the client relationship and decides what is ready for approval. Each assignment starts with a written scope, source records and a named reviewer.

Work you can scope with us

- Bookkeeping cleanup, bank and card reconciliations, and month-end close
- 1040, 1120-S, 1065 and 1120 preparation and review support within the agreed scope
- Payroll journals, payroll reconciliations and agreed sales-tax workpapers
- Year-end schedules, management reporting and family-entity accounting

A handoff built for review

Receive reconciliations, supporting schedules, proposed entries and an open-item register. Material balances carry source references. Questions remain visible until your reviewer resolves them; a balanced trial balance is not treated as proof that every item is correct.

Start with a bounded assignment

A useful first assignment is one entity whose ledger needs to be tied to the return workpapers. Agree the accounts, forms, states and unresolved prior-year items before starting.

Software and access

QuickBooks Desktop, QuickBooks Online, ProSeries, ADP and Digits, subject to the agreed workflow and product eligibility.

The engagement records who can access each system, which records can be processed and where working papers are retained. Product names do not imply vendor certification or partnership.

Engagement options

A defined pilot, recurring preparation support or work by return/job can be considered. Fees, delivery dates, volume limits and acceptance criteria are quoted in writing after the file is assessed. This brochure does not promise a fixed fee or completion date.

Professional responsibilities

Your firm approves positions, signs and files. Establish applicable taxpayer consents and permitted overseas access before sharing US tax-return information. La Comptabilité does not provide taxpayer representation.

What to provide at scoping

- The entity type, periods and specific tasks. Use coded details for the first conversation.
- The accounting system, record volumes, outstanding reconciliations and target handoff.
- Your reviewer, escalation route and any restrictions on overseas access.
